Commissioner for Patents Washington, D.C. 20231

Sir:

In response to the Office Action dated September 19, 2002, please amend the aboveidentified application as follows:

IN THE CLAIMS:

Please amend Claim 1, as follows:

1. (Thrice Amended) A workpiece-transfer device for loading a material workpiece in a workpiece-machining device and unloading a machined product workpiece from the workpiece-machining device, characterized in that the workpiece-transfer device includes a movement means with a rectangular coordinate system for moving a traveling body in a first horizontal direction along the direction in which the workpiece-machining device and a workpiecestorage device stand, said workpiece-machining device and said workpiece-storage device being in a line with said workpiece-transfer device located therebetween, as well as in a second horizontal

U.S. Patent Application Serial No. 09/400,833

direction orthogonal to the first horizontal direction, and in that said traveling body includes a gripping means for gripping a material or product workpiece, wherein said workpiece-storage device includes a product-housing section arranged for stacking of machined product workpieces and a material-housing section arranged for stacking of material workpieces provided in parallel, on one side of said workpiece-machining device, in said second direction.
